INTERNATIONAL NETWORK OF PRODUCTIVE SCHOOLS

Information and Invitations for the Spring Congress in Finland have been E Mailed. If you didn't receive yours contact jussi.kahara@raol.fi.

MIRROR WEB SITE - A EUROPEAN PARTNERSHIP UTILIZING NEW TECHNOLOGIES

The Productive Learning Institute (IDAP) from Vilafranca del Penedès (Catalonia, Spain): Three centres from the INEPS network, the Fogelstromska Institute from Stockholm (Sweden), the Riihimäki Professional Institute (Finland), and the Productive Learning Institute (IDAP) from Vilafranca del Penedès (Catalonia, Spain), have developed an international partnership under the name of Mirror Web Site, modeled after the framework of the Grundtvig Programme of the European Union. The main objective is the creation of a Web Site named Mirror (<http://mirrorwebsite.net>), which aims to be a pedagogical instrument on-line for the youngsters training as well as for the analysis and development of innovative educational models.

This project is for youngsters from 16 to 25 years old and it implies the intensive use of new technologies, not only for communication but also as a working tool. Groups of educators and students will visit and analyse each one of the educational centres participating in the partnership, with the final aim is mirroring the observed image, through multimedia documents which are published in the Mirror Site, next to other items of educational interest.

Some weeks ago, the Fogelstromska Institute visited the Finnish school and now, a group of educators and students from Riihimäki visit IDAP from Vilafranca. Very soon, students and educators from IDAP will visit the partner centres of this project.

The result of these visits will be published in the partnership's site (Mirror Web Site), and probably, next year this partnership will be extended with the incorporation of some new schools.
